# Tangonian

The intersection of local life and global travel

## Our Vision

Diversity of culture, respect for one another's values, we hope to nurture a rich and interconnected world where travelers and the people they meet form lasting bonds and deep memories that extend far beyond the trip.

The time spent together sharing stories and smiles, these are the moments that define our lives and they are irreplaceable.

With such wishes, we offer local guided tours that weave global travelers into local life.

## Our Local Guides

All our local guides are fun, knowledgeable people passionate about culture, history, and life here! Carefully selected from the best of the best, they come from all different walks of life.

### Nagase Keiji

Tangonian Representative Director

I love tennis and traveling. I created the Tangonian because my best travel memories are ones I created and shared with others. I grew up here, in a silk weaving town where Japan Heritage "Tango chirimen" silk is created, and now I'm sharing it with the world!

### Kawada Megumi

I'm a freelance translator and a crafter of natural soap, a business I ran while living in Vietnam for years and have continued back in my hometown, Miyazu. As an artisan myself, I love introducing visitors to passionate creators of all kinds: sake sommeliers and brewers, tatami weavers, and more, all right here!

### Kondo Miki

I'm an English teacher, mom of three children and one cat! I love hiking, traveling, and exploring deep natural caves. I've gotten into studying the deep mythology of Mt. Oeyama where I'm from, as well as traditional arts here like Japanese washi paper. I've collected so many strange and interesting stories to share.

## Custom Private Guided Tours

All of our tours are made for small groups and travelers seeking different experiences.

We promise you will have more personal and unforgettable moments with us.

Also, we can customize your own tour depending on your interests and preferences.
